

Cornubia welcomes Makro

The countdown to Makro Cornubia's grand opening has begun, the wait is almost over.

Makro is set to open their largest store in KZN with all the bells and whistles in Cornubia on 27 March.

Massive discounts will be on offer for the occasion. Traditionally thousands of shoppers have attended similar Makro openings, with queues forming the night before to take full advantage of the opening deals.

If you want to share in the excitement but don't want to be part of the crowd, use Makro Cornubia's online drive-thru facility and get great deals from the comfort of your couch. Seasoned Makro shoppers will be pleasantly surprised by the inspiring lifestyle displays in this 19 100 m² store. Makro Cornubia boasts a ladies and men's wear department, multimedia centre, sports and recreation department, baby goods department, office supplies division, as well as an impressive DIY and combined outdoor, lifestyle and camping section to explore the great outdoors inside our doors.

Other great additions to the new store include a money centre, in-store Vodacom store, tech desk, and, for some quality Makro me-time, come and indulge in the Mugg & Bean.

Enjoy your shopping experience knowing that Makro Cornubia is actively reducing its carbon footprint. Along with extra skylights for natural light and solar panels in the parking area to generate renewable energy, they also use the water on the premises responsibly.
